Issue Tree Rubric

Criteria	Meets Expectations
Completion	Issue Tree has been fleshed out to have at least one main node (Problem Statement) and a minimum of two 'sub-issues'
Process & Understanding	- Issue Tree demonstrates that the student understands how to structure a basic issue tree (i.e. A basic issue tree is one with at least three 'levels') - Issue Tree demonstrates that the student is able to group issues into a primary issue and secondary issue with no overlap between the two
Presentation	- Issue Tree follows the structure outlined in the template provided - Each individual issue is clear and the connection between the sub-issues and main issue makes logical sense
